PROGRAM CONTENT AND SCHEDULE

Friday, May 13, 2011
1:00 pm to 2:00 pm Diet, Health, and Disease: an Overview
2:00 to 3:00 Dysinsulinism; Food Sensitivity; Digestion and Absorption
3:00 to 3:45 Break
3:45 to 5:30 Therapeutic Use of Vitamins: Vitamin A, Beta-carotene, Thiamine, Riboflavin, Niacin/Niacinamide, Vitamin B6, Vitamin B12, Pantothenic Acid, Folic Acid, Biotin, PABA
5:30 to 7:00 Dinner (on your own)
7:00 to 8:30 Therapeutic Use of Vitamins: Ascorbic Acid, Flavonoids, Vitamin D, Vitamin E, Vitamin K

Saturday, May 14, 2011
8:30 am to 10:30 am Therapeutic Use of Minerals: Potassium, Calcium, Magnesium, Zinc, Copper, Iron, Selenium, Chromium, Manganese, Iodine
10:30 to 11:15 Break
11:15 to 1:00 Therapeutic Use of Essential Fatty Acids, Amino Acids, Accessory Food Factors (Coenzyme Q10, Carnitine, N-Acetylcysteine, Pantethine, Lipoic Acid)
1:00 to 2:30 Lunch (on your own)
2:30 to 4:00 Intravenous Nutrient Therapy; Endocrine Therapy: Thyroid, Cortisol, DHEA, Estrogen, Progesterone, Testosterone
4:00 to 4:30 Break
4:30 to 5:30 Endocrine Therapy (con’t)

Sunday, May 15, 2011
8:30 am to 10:30 am Botanical Medicine
10:30 to 11:15 Break
11:15 to 1:00 Cardiovascular Disease; Diabetes Mellitus; Hypertension
1:00 to 2:30 Lunch (on your own)
2:30 to 4:00 Fatigue; Psychiatry; Hematology
4:00 to 4:30 Break
4:30 to 5:30 Gastrointestinal Disorders; Dental/Periodontal Disease

Monday, May 16, 2011
8:30 am to 9:30 am Gynecology; Infertility; Ophthalmology
9:30 to 10:30 Lung Disease; Dermatology
10:30 to 11:15 Break
11:15 to 1:00 Osteoporosis; Arthritis/Rheumatology; Cancer
1:00 to 2:30 Lunch (on your own)
2:30 to 4:30 Drug and Alcohol Addiction; Infectious Disease; Urological Disorders, Neurological Disorders
4:30 p.m. Adjourn

THE RESEARCH LIBRARY

Over the past 36 years, Drs. Wright and Gaby have collected and reviewed more than 50,000 scientific papers from medical journals. These papers document both the basic science and clinical research related to nutrition and disease. Major medical journals have been reviewed back to 1920; more than 500 other journals have been reviewed from volume 1 to the present. Based on the materials in this library, Drs. Wright and Gaby have expanded the therapeutic options available to healthcare practitioners. Course attendees will receive a reference manual that contains citations to more than 3,700 of these articles, including personally written summaries of more than 1,800.

This course “gave me a solid foundation in the practice of clinical nutrition.”

Allan Lieberman, M.D.
Past President, American Academy of Environmental Medicine
All registrations must be received by May 6, 2011.
Cancellation fee: $50 prior to May 6, 2011.
No refunds after May 6.
Space is limited, so please register early.
Return to: Make checks payable to Nutrition Seminars.
Mail to Nutrition Seminars, 12 Spaulding Street, Concord, NH, 03301 or fax registration form to 603-225-1197.

Hotel Reservations: The Doubletree Hotel Seattle Airport (18740 International Boulevard, Seattle, WA) has reserved a limited number of rooms at the conference rate of $119 for a single or double room. To guarantee this rate, reservations must be made by April 22, 2011. Please make reservations with Doubletree’s national reservation desk (1-800-222-TREE) or directly with the hotel (206-246-8600). To obtain the special rate, use reference code NTM to let them know you are with the Nutritional Therapy in Medical Practice seminar. Reservations may also be made online at www.wrightgabynutrition.com.

For further information: Call 603-225-0134 or email drgaby@earthlink.net.
COURSE OVERVIEW

The purpose of Nutritional Therapy in Medical Practice is to provide state-of-the-art information on the use of diet, nutrients, hormones, herbs, and other natural substances in medical practice. This course is a scientifically based guide to nutritional therapy as a complement to conventional medicine. Drs. Wright and Gaby bring to this course an extensive review and analysis of the medical literature and 57 years of combined clinical experience.

Conditions that will be discussed include fatigue, depression, migraine, irritable bowel syndrome, inflammatory bowel disease, peptic ulcer, acne, eczema, premenstrual syndrome, dysfunctional uterine bleeding, arthritis, angina, congestive heart failure, hypertension, hyperlipidemia, prostatic hyperplasia, osteoporosis, alcoholism, and many others.

Nutritional Therapy in Medical Practice emphasizes practical and specific applications of nutritional biochemistry in the clinical setting, including dosages, adverse effects, and drug-nutrient and nutrient-nutrient interactions.

Based on a Research Library of more than 50,000 articles Drs. Wright and Gaby have collected over the past 36 years (see inside), Nutritional Therapy in Medical Practice is a well-organized, information-filled four day course. Attendees will receive detailed printed protocols and a 380-page reference manual containing over 3,700 relevant medical journal citations, including summaries of more than 1,800 key articles.

Target audience: This program is designed for physicians, nurses, chiropractors, naturopaths, dietitians, pharmacists, and other healthcare professionals.

LEARNING OBJECTIVES

At the end of this four-day conference, participants will have the ability to:

1. Utilize a wider array of therapeutic options, including dietary modifications, nutritional supplements, herbs, and bio-identical hormones for the prevention and treatment of common medical conditions.

2. Understand and use a database of scientific literature that relates to natural therapeutics, in order to provide better treatment outcomes.

3. Discuss appropriate doses, toxicities, contraindications, and interactions of the major nutrients, herbs, and hormones.

ACCREDITATION

The Medical Educator Consortium (MEC) is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. The MEC designates this educational activity for a maximum of 23.5 AMA PRA Category 1 Credit(s)™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Faculty Disclosure Statement: The MEC adheres to the ACCME Standards for Commercial Support. All persons that will be in a position to control the content of the CME activity are required to disclose all relevant financial relationships. Faculty disclosure forms outlining this information will be made available to all participants prior to educational activity. MEC has also implemented a mechanism to identify and resolve all conflicts of interest prior to the educational activity being delivered to learners. The source of all support from commercial interests will also be disclosed to learners prior to the beginning of the educational activity.

NDs: 24 CEUs (includes 6 pharm CEUs). Exceptions - Oregon: 18 CEUs (includes 3 pharm CEUs); Calif. CEUs pending. Registered Dietitians: This program has been approved by the Commission on Dietetic Registration for 24 CEUs.

“From vitamin A to zinc and arthritis to zoster, this seminar covers it all. I’ve attended three times and consider the information indispensable to my practice.”

Kenneth N. Woliner, M.D., Boca Raton, FL

“A gem of a seminar, Drs. Gaby and Wright know the literature extremely well ... and you leave with many practical hints that you can use immediately.”

Michael Schacter, M.D.
Past President, American College for Advancement in Medicine

“This is the best course I have ever attended. I learned so much that I could not have learned anywhere else.”

Jitka Lom, M.D., Tamuning, Guam
